OMEGA CONTRACTS
DESIGNED TO DELIVER

DELIVERING
ON EVERY
PROJECT

PUTTING KITCHENS INTO HOMES

BEST OF
BRITISH
SUCCESS

OUR BRAND AMBASSADOR

"I'm delighted to be working with Omega Contracts, a company that shares my passion for good design, high professional standards and service, reinforced by great British craftsmanship."

George Clarke
Architect, Writer, Lecturer and
TV Presenter.

We're proud to be one of Britain's fastest growing suppliers of premium quality kitchens to the housebuilding market. Established in 1992, we've enjoyed continued growth and now have an annual turnover in excess of £50m.

As a forward-thinking company, we consistently invest in our operation and people to ensure we stay at the forefront of our industry. Our dedicated contracts team fully understand the needs of property developers and deliver solutions that work for everyone, on every level.

Based in our state-of-the-art 400,000 sq ft manufacturing facility, and our new 76000 sq ft of warehouse space,

Omega Contracts has both the capacity and capability to supply and install kitchens for all kinds of building projects, large or small.

We also have the design expertise and artistry to offer an extensive range of styles, materials, fittings and unit configurations. Our Very British Collection, which includes our Sheraton, Mackintosh and Chippendale brands, gives you all

the inspiration and flexibility you'll ever need. We take pride in the fact that our brands are built from a foundation of great British design and artistry.

Whichever solution you choose, you can be sure we'll deliver - on time, on budget and to the highest professional standards.

At Omega Contracts we're delighted to be working with George Clarke, an accomplished and passionate architect and Creative Director of the architectural practice, George Clarke + Partners.

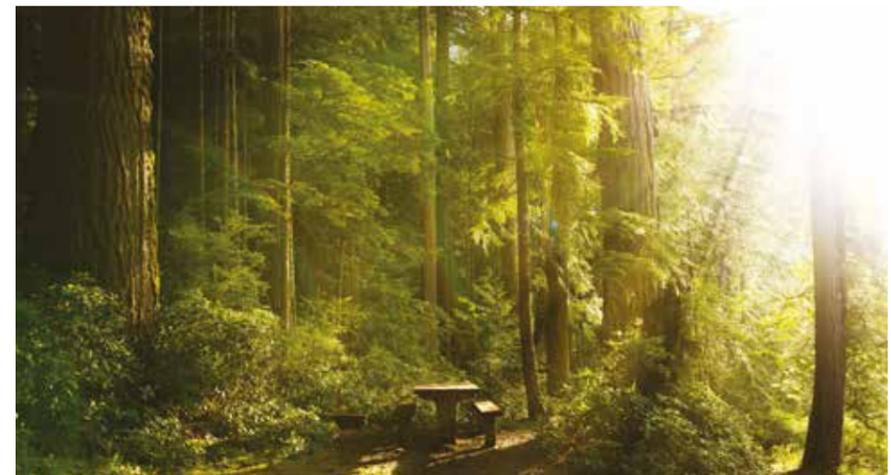

He's also a writer, lecturer and TV presenter of several very successful TV series, including Channel 4's Restoration Man, George Clarke's Amazing Spaces and George Clarke's Old House, New Home. As well as his TV career, George works across a number of architectural projects, giving him real hands-on experience.

We work closely with George to gain a broader understanding of the needs and expectations of architects, property developers and, just as importantly, consumers. We also draw on his in-depth knowledge of design and current trends to accurately forecast the future needs of the property market.

BRITISH
KITCHENS
INTO
BRITISH
HOMES...

Whatever the shape or size of your project, our highly trained team of professionals are committed to delivering exceptional standards of service. From the drawing board, right the way through to the industry-leading after-sales service, our team are there to assist you every step of the way.

This full turnkey project management service is one of the reasons we have partnership agreements with some of the biggest names in the quality housebuilding sector, such as Redrow and Countryside Homes.

With a 10-15 working day turnaround on design and quotations, and a dedicated contract team to provide support throughout the whole process, you can be sure of a smooth and efficient service before, during and after the completion of your project.

Our nationwide project management team will do everything they can to help ensure your build programme is completed on time and on budget.

Our key services include:

- Full turnkey solutions - supply and installation of kitchen furniture, worktops (laminated and Silestone), appliances, sinks, taps and accessories.
- 4 weeks standard call-off on kitchens.
- 4 weeks standard call-off on painted kitchens.
- 5 day remedial and additions service.
- Consumer based market research.
- Continuous and innovative product development.

Our UK
manufacturing
base provides
security of
supply

A COMPANY THAT CARES

Here at Omega Contracts we believe in doing the right thing, contributing to our industry and promoting the highest standards of service.

That's why we're actively involved in, and members of, various schemes and associations covering corporate responsibility, training, and health and safety, such as the KBSA.

But it's not just the kitchen environment we care about. We're also committed to making our planet a nicer place to be. So naturally, sustainability is something that's important to us. From the wood we use, to the energy we consume, to our transport and logistics, we take

great care to ensure we're being environmentally responsible at all times.

We also like to make products that last. We believe this is just as important for protecting the world's limited resources. That's why we've been awarded FSC® Chain of Custody Certification, giving you peace of mind that the materials used to make your kitchens have been sourced from responsibly managed forests.

Minimalist clean lines and sleek designs.

If you're looking for a clean finish for your development, a kitchen designed without handles could be the answer. The Inset range is the perfect option.

SERVICE AT EVERY STEP

We fully understand your needs as a housebuilder and our dedicated contracts design team can plan your project from start to finish, leaving you confident in the knowledge that your kitchens will be supplied on time, on budget and to your precise specification.

However complex and challenging your project may be, we have the experience and expertise to deliver. The real test of a team is how well it performs when problems arise. Our ability to adapt and find solutions is what sets us apart from other kitchen suppliers.

TENDERING

When tendering for your project, we'll provide these services:

- Design concepts completed by our team of qualified and highly skilled designers.
- Designated contract designers from receipt of enquiry through to tender completion.
- Professional, friendly service.
- Tender documents including detailed layouts, high-quality CAD generated images where required, full product information, product specification and pricing.
- Detailed documentation showing inclusive service options.
- Clear and transparent pricing structure within easy-to-view price groups.

PROJECT MANAGEMENT

Once we're working together on your project, we'll provide:

- Option to select from supply only to full turnkey service.
- Experienced SMSTS and IOSH-qualified project management team.
- Site operatives with CSCS accreditation.
- Regular on-site presence.
- Electronically reported check measure service.
- Full plotting service.
- Quality control of installation from delivery to sign off.

AFTER-SALES CARE

On completion of your project, we'll provide you with a handover pack that includes information on our after-sales service and guarantee, along with useful contact numbers, specific to your project.

The after-sales handover pack includes:

- Details of our guarantee on kitchen furniture supplied by Omega Contracts.
- After-Sales Care contact details
- Details of appliances and other third-party items supplied to each project, and contact numbers for service and guarantee issues.

"I was impressed with the dedication and flexibility of the team. In what was a particularly challenging project, their ability to solve problems and offer support every step of the way was invaluable."

Darren Parker
Head of Commercial,
Hopkins Homes Ltd.

UNIQUE
KITCHENS

Unique and innovative styling for a distinctive edge.

It's time to stand out from the competition with a range of recessed handles or J-pull Shaker doors only available from Omega, designed with originality in mind.

PROUDLY
MADE IN
BRITAIN

At Omega Contracts we're very proud of our British heritage; not to mention our reputation for designing and manufacturing an outstanding range of high quality and stylish kitchens. All of which are made at our industry-leading, purpose-built factory in the UK.

This 400,000 sq ft facility has one of the largest in-house painting lines in the UK and utilises the very latest manufacturing techniques. In 2016, we invested over £20m on new state-of-the-art plant and machinery with the installation of a new 50 ft production line.

To us, being a British company isn't just about where we're based. It's about having a forward-thinking attitude and a natural flair for ingenuity and innovation. Great British design has always set the trends and pushed the boundaries, which is something we strive to do with every kitchen we create.

Wherever we can, we use British components in our kitchens, but to help ensure we maintain the highest possible standards, we also source materials from around Europe. These are then combined and assembled in the UK to produce a superior quality kitchen, backed by unrivalled customer service.

Our purpose built facility provides extensive warehousing and office space and will provide the room to grow and expand even further, to accommodate the development of the company and our customers.

QUALITY AT EVERY LEVEL

We partner with leading names in the property development industry, furnishing new-build properties across the UK, from large-scale apartment developments to quiet country villages.

These are just some of the companies we work with:

PAINTED KITCHENS

Ivory	Light Blue	Green	Cashmere	White
Sage Grey	Oyster	Light Grey	Steel Blue	Hickory
Limestone	Anthracite	Sandstone	Oxford Blue	

Classic colours, timeless designs.

With 14 painted colours and 12 door styles (from modern slabs to traditional in-frame doors), the painted range from Omega Contracts has over 160 painted kitchen options to choose from.

CABINET
QUALITY

The cabinets form the foundation of every kitchen, so if your project is looking for real durability, only a quality cabinet will do. The hallmark of that quality is a glue and dowel construction, giving you a cabinet that's built to last, with no unsightly visible screws, fixings or drill holes.

As the kitchen can be an environment that has a lot of moisture in the air, it's also really important that any exposed edges are protected from potential water damage.

Our rigid specification includes soft-close hinges and drawers, adjustable shelves and anti-tip shelf fittings, all supplied as standard.

COLOUR CO-ORDINATED CABINETS

Choose from 11 cabinet finishes which allow you to colour co-ordinate or contrast your fascia style at no extra cost. A full range of matching plinths, panels and pilasters are also available which will add to the overall co-ordinated look.

WALL UNIT

- 18mm MFC glue and dowel construction, for no visible fixings.
- 8mm solid back panel for extra rigidity.
- Cabinets are edged all round for protection against moisture, even on the edges you can't see.
- Cabinets include a 1.3mm thick front protective edging.
- Grass Tiomos In-line hinges with integrated, fully adjustable soft close or inline fixing with no visible screws.
- Drilled-in shelf support pegs with adjustable shelf positions.
- Choose from 300mm or 350mm depth units (350mm depth fits a 12" dinner plate). Choose from three heights: 576mm, 720mm or 900mm.
- Concealed wall fixing brackets, 150kg loading per pair, which are wall-locking for safety, with a third bracket supplied to double-width wall units.
- Double-width units supplied with full centre division for prevention of shelf bowing and increased shelf-adjustment options.

BASE UNIT

- 18mm MFC glue and dowel construction, for no visible fixings.
- 15mm solid back panel for extra rigidity.
- Cabinets are edged all round for protection against moisture, even on the edges you can't see.
- Cabinets include a 1.3mm thick front protective edging.
- Grass Tiomos In-line hinges with integrated soft-close action.
- Drilled-in shelf support pegs with adjustable shelf positions.
- 50mm service void that aids installation.
- Concealed unit fixings.
- Front-frame fixings are vertically and horizontally adjustable.
- Adjustable legs for fitting on uneven floors.

MODERN
KITCHENS

Inspired solutions for modern living.

A range of modern kitchens with simple styling, available in a variety of finishes, materials and colours including gloss, matt painted and woodgrain effect.

SCALA DRAWER SYSTEMS

SCALA STONE PAN DRAWER
WITH RAILS

SCALA STONE PAN DRAWER WITH
SMOKED GLASS

SMOKED GLASS AND CRYSTAL GLASS PAN DRAWER SIDE OPTIONS

Both Scala Stone and Nova Pro Aluminium pan drawers are available with either railings (supplied as standard) or Smoked (Scala Stone) or Crystal (Nova Pro) glass sides as a free-of-charge optional extra. These solid sides are useful to prevent pan handles and other items protruding through the drawer, as well as being extremely stylish.

LUXURY OAK DRAWER BOXES

For that added luxury, you can also choose solid oak drawer boxes and pan drawers, constructed using traditional dovetail joints. These drawers use GRASS soft close runners, ensuring a smooth and silent close, and are an ideal accompaniment to any kitchen, and are especially suited to painted ranges.

Sheraton and Mackintosh Kitchens have quality built-in, with drawer boxes from GRASS, one of the world's leading suppliers of quality drawer systems.

Your kitchen is supplied with all drawers pre-fitted, saving you time and money on installation.

GRASS SCALA STONE DRAWER FEATURES

- GRASS drawers feature fully synchronised drawer runners, providing an ultra-smooth action whilst at the same time requiring a very low opening force.
- Drawers feature a smooth and silent soft close action with progressing dampening.
- Full extension drawer runners providing a load bearing capacity of 40kg per drawer (more than conventional systems).
- Twin-wall, metal sided drawer box with straight internal sides to provide more storage space and better compatibility with accessories.
- Solid 16mm base to provide extra rigidity and reliability.
- Easy cleaning and maintenance with tool-free removal of the drawer and drawer front to aid. No tools, no hassle.

Easy to remove for cleaning

GRASS SCALA STONE
(with square side profile).
Supplied as standard.

TRADITIONAL
KITCHENS

Beautifully designed kitchens with British craftsmanship at their core.

Simple Shaker style doors, detailed raised panel designs and classic in-frame kitchens are available in 14 painted colours and a range of solid timber options.

Handle trim (3 lengths) COPPER

Handle trim (3 lengths) ANTHRACITE

DUROPAL

New 20mm Quadra profile:

For a sleek and slimline worktop look, 20mm Quadra Duropal worktops the following colours will be launched in the existing collection.

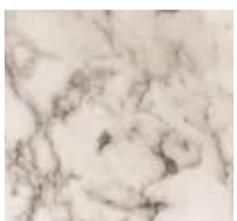

Breccia Paradiso

Nero Portoro

Bellato Grey

Marmore Bianco

For further details of colours and options available, please see the latest Product Selector. Alternatively, please call us on **01405 743333**, email us at omegacontracts@omegaplc.co.uk or see our website omegaplccontracts.co.uk

FINISHING TOUCHES

In addition to our extensive range of kitchens, we can provide a complete one-stop solution that includes a range of complementary products to complete your development.

Products such as laminate and solid surface worktops, sinks, taps and appliances, from leading manufacturers, can all be supplied.

As part of our tendering process we will be happy to recommend the most suitable worktops and appliances required for your development, ensuring the highest quality product possible for your budget.

Alternatively, we are happy to source products specified by you, allowing you to take full advantage of our one-stop solution as all products are delivered together, ensuring your project is completed on time.
