# BRITISH DESIGN & MADE

## CRAFTSMANSHIP. CREATIVE FLAIR. CLASSIC STYLE. MODERN TECHNOLOGY.

### BRITISH DESIGN

British design is famous the world over. When you choose an English Rose kitchen, you bring the best of British into your home.

That's because our range of premium quality kitchens are built using the finest materials from around the world, manufactured right here in our purpose-built factory in the heart of Yorkshire.

### CRAFTED FOR YOU

We craft each and every kitchen with love, skill and attention. Our units are not only incredibly durable, but they're easy to store and assemble - as well as flexible enough to install in any kitchen space.

Our ingenious storage solutions will ensure that whatever space you do have is optimised. Add to this our vast and beautiful array of styling options, and the result is a range of kitchens we're proud to call our own.

And we're sure you will be, too.

# KITCHEN

If you want to make a statement, your unit colour is where to do it. Traditionally used for the core colour of the scheme, making an accent of your base units can turn an island into a real centrepiece.

# COLOUR

More subdued schemes can still benefit from alternate colours on base and wall units, more a complementary pairing than an accent. Contrasting the colour of your drawers against the cabinet itself will add an extra line of detailing.

# EMBRACING COLOUR

Experimenting with colour is one of the most fun parts of the process. Getting it right can be the difference between a kitchen you like and a kitchen you love. Here's some things to think about when picking your palette...

11

1

Lighting can drastically change the mood of a room. Well-lit colours appear brighter and more intense, where shade can be used to control contrast.

2

Texture adds depth to colour. Changing the way light hits a surface adds a whole new range of colours to your palette.

3

Accessories are the simplest means of bringing colour to your space, and you can always swap them out when you fancy a change.

4

Less is more. Having just one or two accent pieces can really bring the element of surprise to your kitchen.

12

# TEXTURE

Textures deepen and define a space. Natural woodgrains and fabrics will bring homeliness, metals and marble a contemporary feel. Make a feature of a tiled splashback or contrast a glossy finish with soft furnishings.

13

# PATTERN

As pattern seeking creatures we take joy in finding and contrasting them. But only so far. As with patterns in music, there needs to be harmony for the effect to be pleasing. Use pattern sparingly in your kitchen with a few subtle contrasts, and they will sing.

MMM YES PLEASE.  
 THAT'S WHAT YOU'LL BE SAYING  
 TO OUR MODERN RANGE. GO ON,  
 TURN THE PAGE. ENJOY A TASTE  
 OF THE NEW. 

**20 YEAR GUARANTEE**  
on all cabinets, hinges & drawer boxes

## PLANNING

**AS EXCITING AS DESIGNING YOUR KITCHEN CAN BE, IT'S STILL AN INVESTMENT THAT NEEDS CARE AND CONSIDERATION. PROPER PLANNING CAN RESULT IN A MORE FUNCTIONAL, ENJOYABLE SPACE THAT STANDS THE TEST OF TIME.**

Our trusted retailers are on hand to guide you through the process, but here's five things to think about before you begin.

### STEP 1: LAYOUT

Take a look at your existing kitchen. How could the space be better used? Do any walls need to be knocked through? Take measurements wall-to-wall and come up with as accurate a floor plan as possible. Think about the appliances and features you'd like to include and how to arrange them, then bring your plans to one of our expert retailers.

**VISIT US ONLINE AT  
ERKITCHENS.CO.UK  
TO FIND YOUR NEAREST RETAILER**

### STEP 2: EXPERTISE

A specialist will go through your plans with you and make sure you haven't overlooked anything. The last thing you want is doors knocking into each other, or areas of restricted movement. Less is more - prioritise space over features.

### STEP 3: DOORS & WORKTOPS

Here's where the fun starts. Take a look at our extensive range of door styles, worktops and paint options. Experiment with texture and pattern, perhaps even contrast door colours between base and wall cabinets. Just remember to enjoy the process - play around and find what works for you.

### STEP 4: STORAGE SOLUTIONS

We do storage differently. From our world of customisable organisation options to cutting-edge innovations from Kesseböhmer, including the award winning LeMans corner system - we make sure that even the most limited storage space is used optimally. Meaning your sides are always clear, and everything is where you want it to be.

### STEP 5: FINISHING TOUCHES

Time to choose your door handles (unless you've gone handleless), sink and taps, lighting, drawers and design features. You can even start getting inspired about accessories - see our Instagram - but once you're happy with all of your choices, let our retailer know and we can start the ball rolling.

# DOOR

THE DOOR STYLE CAN DEFINE THE WHOLE LOOK AND FEEL OF YOUR NEW KITCHEN. THAT'S WHY WE'VE CREATED A DOOR RANGE TO SUIT EVERY KIND OF HOME AND EVERY KIND OF TASTE.

# SINK & TAP

IT'S WHERE POTATOES ARE PEELED FOR A HEARTY SUNDAY ROAST. IT'S WHERE LITTLE HANDS ARE RINSED AFTER DIPPING INTO THE CAKE MIX. AND IT'S WHERE YOUR BEST PLATES – THE ONES TOO DELICATE FOR THE DISHWASHER – ARE WASHED UP READY TO ENTERTAIN GUESTS ANOTHER TIME.

That's why we take our sinks seriously. English Rose's sleek stainless steel products are made from the highest grade steel available, which is resistant to staining, rusting and corrosion.

Our HYDRA ceramic sinks come in different colours, from black to white, for a striking impression or a classic style. But looks aren't everything: the 80% quartz granite also has anti-bacterial properties, as well as being resistant to heat, burns and stains.

## DESIGN FEATURES

Nothing could be more enjoyable than selecting the individual features that help set your new kitchen apart from the rest. English Rose serves up a whole menu of different design options to choose from. Combine stylish touches and practical innovations to achieve the customised result you deserve.

### MAKING THE MOST OF YOUR CORNER

As an alternative to normal corner base and wall unit combination, you can choose from a range of corner larder units. These maximise the available storage space in what can be a tricky area of the kitchen. They can either be supplied with shelves, or with four Kessebohmer LeMans storage systems for easy access.

### L-SHAPE CORNER UNITS

Specially designed to get the most out of these hard-to-reach spaces, our L-shape corner units are available in different sizes and are ideal for everyday accessible storage.

### USING UNITS DIFFERENTLY

It's time to take a fresh look at kitchen units. With English Rose you can create your very own unique design. For example, you could take a humble bridging unit and combine it with open plan shelving, creating a whole new design feature that's practical, as well as attractive.

## DESIGN FEATURES

### GLAZED UNIT

It's time to turn your wall units into eye-catching features. With one of our glazed wall unit designs, you can turn a cupboard door into a cupboard window. Not only does this add a touch of chic, it also saves you opening every cupboard to check what's inside.

### CHUNKY PILASTER

Add elements of traditional flair such as pilasters, small pillars that work perfectly with a English Rose kitchen. The design means you can take complete control of building the right look and feel for your space.

### LARDER UNITS WITH OAK DRAWERS

Few things beat the dignified beauty of real oak wood. That's why, for our larder and pantry unit options, exquisitely crafted oak drawers are available in a variety of heights and styles. Experience the satisfaction of good taste each time you reach for a jar or a ramekin.

### LIFT-UP WALL UNITS

Sometimes you need access to a storage space for longer, for example while cooking. But leaving cupboard doors open is unsightly and unsafe. Enter the lift-up wall unit. This flap door opens upwards and remains open until you're ready to close it. Built-in soft-close technology means you'll never have to hear it slam.

### WORKING MANTEL

Give your kitchen the solid respectability of a Victorian kitchen with an attractive mantel. Select from an array of veneered and painted finishes, then enjoy the extra storage as well as the vintage vibes.

### CURVED CORNER UNIT

This sophisticated approach removes the angles from corners and adds a sweeping line instead, with a curved door that will suit both contemporary and traditional interiors. Pairing perfectly with curved laminate worktops, curved corner units are available with these kitchens:

Fusion\* (all colours), Classic (all colours), Richmond (all colours), Heritage (all colours), Stately Painted, Shaker Wood (all colours).

\*Please note the curved unit used for In-Line ranges is supplied with two doors

### WICKER BASKETS

For a real touch of rustic ambience, we recommend wicker basket storage. As base units they are ideal for larder-style storage, and the soft materials will add a note of warmth and tradition to your new kitchen.

# ORGANISATION

A FULLY FUNCTIONAL, HIGHLY ORGANISED KITCHEN IS ALSO A BEAUTIFUL ONE. ESPECIALLY WHEN IT COMES WITH A HOST OF INGENUOUS FEATURES AND ACCESSORIES DESIGNED TO MAKE LIFE EASIER WHILE LOOKING GREAT AS WELL.

## DRAWERS

Our cutlery drawers and utensil dividers are expertly designed to provide maximum practicality, with a wide range of stylish options to choose from. Whether you opt for plastic or luxurious oak finish, your retailer will help you decide the perfect combination of trays and dividers, to suit the width of your drawers.

# CLEVER STORAGE

MAKING YOUR NEW KITCHEN  
AS FUNCTIONAL AS IT IS ATTRACTIVE.

During the kitchen planning process it's useful to imagine not just how you'd like the space to look, but just as importantly, how you typically use your space every day; Where are the pots and pans kept? How easy is it to see the contents at the back of my shelves? Can I actually reach every area of my cabinets, or am I planning wasted space?

All of our kitchens come with the optional addition of Clever Storage products from Kesseböhmer; the best of German engineering that means your new kitchen design won't just look great, but will make time spent unpacking shopping, preparing meals, and tidying up both quick and easy.

- 1** DISPENSA - Remarkably tidy storage space. The trays can be individually hung at heights to suit the contents, making DISPENSA a flexible solution providing a lot of storage with a very small footprint.
- 2** DISPENSA SWING - This supply cabinet that's really got that swing. When it is fully pulled out, it can be rotated 90° on its own axis so that either side can be turned to the front as required.
- 3** DISPENSA JUNIOR - Wave goodbye to waste. Slim base cabinets are notorious places for food that stays hidden until it's no longer edible. The DISPENSA Junior allows for instant visibility and access to all areas of the unit in one motion.
- 4** CONVOY PREMIO - creates an emotional connection when you open or close it: The contents glide out of the cupboard, moving directly towards you so that you can reach them from three sides. With CONVOY Premio stocking up on food becomes a real adventure.

Products are available in both matt silver and anthracite.

- 5 iMOVE – The intelligent pull-down system for wall units. Having wall units in your new design doesn't have to mean balancing on a chair or keeping a step stool handy; the iMove allows for easy accessibility to difficult to reach spaces, meaning wall cabinets can be fully utilised by everyone in the household.
- 6 LEMANS - Easy Accessibility is just around the corner. If you're planning an "L" or "U" shaped kitchen then you will need to tackle the tricky corner space which will otherwise be wasted. With height adjustable trays that each pull completely out of the cabinet individually and boast a market leading weight and size capacity, the Kesseböhmer LeMans is the world's best-selling corner solution.

reddot design award

Experience the design every time you reach for a pot or pan with the LeMans Corner Storage system, awarded the Red Dot Design for outstanding design achievements.

- 7 NO. 15 - Extra storage space and functionality. With the right fitting, narrow gaps can provide a surprising amount of storage space and functionality.
- 8 TANDEM ACCESS ALL AREAS - No other solution gives you the same level of visibility and accessibility of your groceries. The Tandem Larder allows for storage of a whole week's worth of groceries in just one unit; so don't waste time searching through individual drawers and don't waste money losing food at the back of your shelves until it's past its best!
- 9 TANDEM SOLO - The characteristic opening experience. One gentle pull opens the door and draws the fitting forward so that all the contents are in full view and easy reach.

Products are available in both matt silver and anthracite.
