

ENGLISH ROSE®

DESIGNED FOR LIVING

THE KITCHEN COLLECTION

DESIGNED TO ENDURE

I'm delighted to be introducing the English Rose collection, as well as giving you a few suggestions and ideas along the way so that you can create the perfect kitchen for you.

When choosing a kitchen, it's really important to consider the quality of the construction. Very often, people get distracted by the style and overall design of the kitchen, but it's the build quality of the cabinets that forms the foundation of your kitchen. Without durability, it won't stand up to the rigours of modern life.

English Rose Kitchens are built to last. The cabinets are constructed using a combination of traditional craftsmanship and the very latest manufacturing techniques. That's why every kitchen is guaranteed for 10 years.

And if you need a little more peace of mind, turn to page 130 where you'll find a useful guide to buying a new kitchen. This handy section will help make the process as straightforward as possible.

With so many fantastic styles, accessories and ideas across the following pages, I'm confident you'll have no problem creating the kitchen you've always wanted.

George Clarke
Architect, Writer, Lecturer and TV Presenter.

DESIGNED FOR LIVING

At English Rose we do more than just make beautiful kitchens, we create beautifully practical spaces that serve as the perfect focal point for the modern British home. The kitchen is no longer just a room for cooking in, it's a multi-functional space that can be used and enjoyed by the whole family.

All of our English Rose Kitchens are designed with modern life in mind, helping to restore a sense of calm, reflecting your personality and transforming the way you live.

Because every family is unique, there's no such thing as a typical English Rose Kitchen. In this brochure you'll find an extensive range of styles, from traditional to modern to everything in-between. What's more, we've made sure every kitchen has the flexibility to be customised to suit your own particular tastes.

You'll find an inspirational choice of colours, finishes, worktops, sinks, taps and accessories that allow you to create a kitchen that's as individual as you are. And because we insist on using only the best quality materials and craftsmanship, you can be sure that whichever kitchen you choose, it will look beautiful for many years to come.

A VERY BRITISH KITCHEN

At English Rose we're very proud of our British heritage, not to mention our reputation for designing and manufacturing an outstanding range of durable, high-quality kitchens. All of which are made using the latest manufacturing techniques at our modern, purpose-built factory in Yorkshire.

But being British isn't just about geography. It's about having a forward-thinking attitude and a natural flair for ingenuity. Good British design has always set the trends and pushed the boundaries, which is something we strive to do with every kitchen we create.

Wherever we can, we use British components in our English Rose Kitchens. But to help ensure we maintain the highest possible standards, we also source materials from around the world. These are then combined and assembled in the UK to produce a superior quality kitchen, backed by unrivalled customer service.

COLOUR

When planning a new kitchen, the first choice you make is often your colour scheme. Along with texture and pattern, colour can be the difference between a kitchen you like, and a kitchen you love. Colour is a subjective and emotive topic, and there are lots of guidelines you can work with to make sure your kitchen perfectly matches your own personality and taste.

White provides a beautiful neutral canvas that has proven timeless, always appearing clean and fresh. You can pair this with a more striking worktop or painted feature wall to really make it pop. If white is too stark for you, then consider a softer, more tranquil tone such as cashmere or ivory. Ivory works well with dramatic colours, such as dark blues and browns, whilst still providing a neutral backdrop on which accent colours can also be used to add interest.

Although white is ideal for pairing with primary colours, creams are more suited to the secondary colour spectrum, and can be enhanced by using different shades and textures. Sand can be used as a darker, warmer scheme and its earthy tones work well with whites, creams and bolder dark browns. Just be careful when choosing an accent, as stronger colours can clash. Although traditionally used in larger spaces, don't be afraid to use dark colours in smaller rooms as this can often create a sense of depth and space when used correctly.

Using two colours is a great way to add interest subtly or in a contrasting way – for example, pairing light doors with darker colours.

George Clarke
Architect, Writer, Lecturer and TV Presenter.

WHITE

SAND

CREAM

BROWN

COLOUR TIPS:

- Make sure your kitchen is well lit, either naturally or artificially, to bring out the best of your chosen colour scheme.
- Use accessories or artwork to introduce a burst of colour that can be easily changed as trends, and your tastes, develop over time.
- Keep things simple. When using accent colours, less is more. A single accent can have much more of an impact than using two or three.
- Think about how different textures can provide you with contrasting or complementary colours. For example, a textured wall tile will add more depth to your scheme than a simpler plain tile.

SHAKER

FOR EVERY KIND OF KITCHEN

There's a reason the Shaker Kitchen continues to be so popular in Britain: its iconic framed door is incredibly versatile and can fit seamlessly into any shape, size or style of home.

And with an English Rose Shaker Kitchen, there's no shortage of stunning design options to choose from. Natural woodgrains, painted woodgrains, smooth painted finishes, high-gloss finishes, and that's just the doors.

There's also an inspirational range of worktops, handles and design features to let you personalise the look and create a kitchen that suits your own individual style.

"Whether you're going for a modern look or something more traditional, the Shaker style has the versatility to work."

George Clarke
Architect, Writer, Lecturer
and TV Presenter.

TEXTURE

Texture is a truly exciting way to introduce depth and interest to any room, especially the kitchen. It's all about layering, complementing and using similar colours and tones, whilst also playing with the textures to give a timeless and elegant feeling to your design.

From multi-layered high-gloss lacquered doors, and complementing silky satin painted finishes, to colder contemporary stone worktops or a warmer wooden breakfast bar, it's important to think of your kitchen design as a whole, taking into consideration flooring, splashbacks and even the appliances. Using contrasting textures can add great depth and interest to any kitchen, making even the simplest designs striking.

George Clarke
Architect, Writer, Lecturer and TV Presenter.

TEXTURE TIPS:

- Texture can be used to create different shades of the same colour – useful when creating a monochromatic scheme.
- Understand how light will interact with any proposed textures before committing them to the scheme. Make sure you test this at different times of the day with both natural and artificial light.
- Always consider how texture impacts on your chosen colour scheme.
- When using textures, remember that how they feel, as well as how they look, is very important.

MODERN

KEEPING THINGS SIMPLE

Modern life is complicated enough. That's why the kitchens in our Modern range are designed to restore a sense of order and harmony in the heart of your home.

Keeping things clean and simple however, doesn't mean compromising on character. In fact, there are designs within our Modern range that are impossible to ignore; statement kitchens that show, without a shadow of doubt, that less can be more.

Featuring sleek lines, handle-less doors, on-trend colours and contemporary textures and finishes, a Modern Kitchen from English Rose is the ultimate expression of minimalist style.

"A modern kitchen can have just as much character as a traditional one. It's all about adding those unique, personal touches."

George Clarke
Architect, Writer, Lecturer
and TV Presenter.

ACCENTS & PATTERNS

Accents and patterns can be used with colour and texture to lift the character of your scheme, and are an easy way to keep your kitchen looking fresh and on-trend. You don't need more than one accent colour in a scheme as this can dilute the impact – just choose a colour you love, perhaps a burnt orange or olive green.

Accents should be used sparingly to add a burst of colour or texture to an otherwise minimalist and neutral scheme. Using one colour can have a dramatic effect, and is easily achieved by introducing coloured gadgets, artwork or floral displays. You could even feature soft furnishings in vibrant colours, such as cushions or rugs.

Adding a pattern to your scheme doesn't always mean using bright, flamboyant designs – patterns can be introduced, as with accents, in small measures. Less is more and the brighter the colour, the less you need to make an impact. A simple line, or subtle check can often add more than a louder, more detailed pattern.

George Clarke
Architect, Writer, Lecturer and TV Presenter.

ACCENT & PATTERN TIPS:

- Use accents and patterns to complement rather than dominate the colour scheme.
- Pattern doesn't need to be repetitive, so long as it has a link to the scheme, either through colour or texture.
- Try to introduce accent colours and patterns within items that can be easily changed to reflect new trends and your own personal tastes.

LET YOUR CHARACTER SHOW

There are so many reasons to fall for one of our Traditional-style Kitchens: the decorative doors, the elegant design features, the palette of naturally beautiful paint shades.

Then there's the finishing touches we offer: the cast iron handles, the Belfast sinks, the corning, pelmets and pilasters, the list goes on.

But the range's appeal isn't just about timeless design and characterful detail. All of the kitchens in our Traditional range are also perfectly equipped for the modern world. Each offering cutting-edge storage solutions to make them as practical as they are beautiful.

"Traditional kitchens have come a long way. There are now more ways than ever to create something timeless yet unique."

George Clarke
Architect, Writer, Lecturer
and TV Presenter.

LET'S GET PERSONAL

Over the following pages you'll discover just how versatile our kitchens really are. There's dozens of design options to choose from including ingenious storage solutions, stunning design features and all the finer details such as handles, lighting, sinks and taps.

Do you want a natural or painted finish? Straight or curved worktops? Handles or handle-less doors? These are the things that will make your English Rose Kitchen unique and perfectly suited to your particular needs and tastes.

"This is your opportunity to transform your choice into something that reflects your personality and your individual tastes."

George Clarke
Architect, Writer, Lecturer
and TV Presenter.

COLOUR PALETTE

To let you express your own unique style, a selection of English Rose Kitchens is available in a range of 14 stunning, on-trend colours.

RECOMMENDED CABINET COLOURS

English Rose painted kitchens can be supplied in all 11 cabinet colours.

If your design includes curved corner base and wall units, please ensure you only specify Lissa Oak, Sand Oak, Platinum White or Matt Ivory.

Open units are also available in a choice of 14 painted colours.

The colours shown in this brochure are as accurate as the printing process allows and therefore we strongly recommend that you contact your English Rose retailer to view a display or door sample before placing your order.

MAKE IT YOURS

VISUALISE YOUR ENGLISH ROSE KITCHEN

You can now create your perfect kitchen using the English Rose kitchen visualiser tool. Available online at ervisualiser.co.uk, or as an iPad app, our handy tool allows you to select from a range of painted door styles, worktops, flooring and wall colours. It's the perfect way to plan your new kitchen.

To download the app, please visit the Apple App Store and search for **English Rose configurator**.

Once you've finished, simply save your creation, email to yourself or a friend, or share on Facebook, Pinterest or Twitter.

Why not plan your new kitchen today and visit your local English Rose retailer to discuss your requirements?

HANDLE OPTIONS

We offer an extensive range of distinctive handle styles to let you personalise your English Rose Kitchen and make it your own.

Please note, not all handle suites are suitable for each kitchen. Most are supplied at no extra charge, however, a small number do carry a surcharge and your English Rose retailer will be happy to advise you on suitability and costs. A handle suite may comprise up to three handles which are fitted to drawers, doors and spice boxes where applicable.

MODERN HANDLES

TRADITIONAL HANDLES

† Handles can be fitted either vertical or horizontal.

HANDLE-LESS KITCHENS

If you're looking for a minimalist kitchen, perhaps a kitchen that doesn't feature handles as these can detract from clean lines and a sleek design, then English Rose has two ways to achieve this – Contact and Fusion.

ENGLISH ROSE CONTACT KITCHENS

The principle of Contact is that wherever possible, doors and flaps are opened simply by touch which will activate the opening mechanism. (Please note that certain appliance doors, pull-out units, magic corner units, etc. are not available with this touch open system).

In the same way, Contact drawers and pan drawers are opened by simply pressing on the drawer to activate the spring-open runners. (Please note that certain drawers used on pull-out units are not available with spring-open drawer runners. Internal drawers are not available with spring-open runners).

English Rose Contact is available on all Contemporary, Zest, Opaco and Logica doors and is also available in White Satin.

ENGLISH ROSE FUSION KITCHENS

Fusion kitchens are the alternative way to design an English Rose Kitchen without a handle. This style features an integrated J-Pull style handle grip (called J-Pull due to its shape).

The integrated grip of Fusion has been specifically developed to be deeper than other versions, providing more grip and ensuring that opening dishwasher and larder doors is easier.

Fusion kitchens are available in six gloss finishes (White, Ivory, Grey, Light Grey, Cashmere and Anthracite) as well as 15 matt painted colours.

Fusion is also available in a unique Shaker style option, exclusive to Omega – manufacturers of English Rose kitchens.

Choice of aluminium or Scala drawer box with integrated soft close action.

CABINET SPECIFICATION

Our cabinets are made from 18mm thick chipboard panels incorporating solid backs. You can choose from 11 colour co-ordinating finishes that feature on both interior and exterior surfaces. A full range of matching plinths, panels and pilasters are also available that will add to the overall co-ordinated look.

GRASS TIAMOS SOFT CLOSE HINGE

English Rose units are supplied with GRASS Tiamos hinges with an integrated soft close action. These hinges require less opening force and the dampening action is not affected by changes in temperature.

MAKE THE SPACE WORK FOR YOU

By adding some of the many innovative design features and storage options we offer, you can enhance the style and functionality of your English Rose Kitchen and create a personalised space that's perfect for your needs.

MAKING THE MOST OF YOUR CORNER

As an alternative to a normal corner base and wall unit combination, you can choose from a range of corner larder units. These maximise the available storage space in what can be a tricky area of the kitchen. They can either be supplied with shelves, or with four Kessebohmer LeMans storage systems.

LARDER UNITS WITH OAK DRAWERS

To complement your English Rose Kitchen, we have a great range of larder and pantry unit options, complete with beautifully crafted oak drawers. They're available in a variety of heights and styles.

OPEN SHELVING

As an alternative to placing the sink under a window, or using a bridging unit, why not consider using open shelving? The solution shown here uses planked buttermilk panelling and shelving to create a traditional, country kitchen look.

SEATING AREA

If you want to add a little more versatility to your kitchen, a casual seating area can be a great idea. What's more, it can also provide some very useful additional storage space.

ILLUMINATED SHELVING

Both stylish and practical, illuminated shelving can be one of those finishing touches that really sets off your kitchen design. It's available as either a straight shelf in 600mm and 900mm widths, or as a corner shelf.

CLEVER USE OF A SMALL SPACE

Even in smaller kitchens, where space is at a premium, a breakfast bar could still be incorporated into the design. It not only provides useful, additional worktop space, but also a casual area to enjoy the most important meal of the day.

PLATE & WINE STORAGE

We have a selection of plate and wine racks available to perfectly complement our range of painted kitchens. Available in 500mm and 800mm widths, these units have the capacity to store 10-32 plates and 8-28 bottles of wine.

ISLAND UNIT

An island unit adds extra surface space and character to your kitchen. You'll find a wide range of units available in the English Rose collection, some incorporating traditional features such as decorative pilasters and other more modern designs utilising different heights.

WICKER BASKETS

More suited to traditional kitchen designs, these wicker basket base units are ideal if you're looking for larger-style storage.

CURVED CORNER UNIT

A stylish alternative to the more standard L-shape corner base unit, the curved version, with its sweeping lines, can suit both modern or traditional-style kitchens. They partner perfectly with our range of curved laminate worktops and are available in a selection of kitchens:

Opaco, Richmond, Fusion, Classic, Heritage, Shaker Wood Painted, Shaker Lissa Oak Wood, Logica and White Satin.

*Please note that the curved unit used for Fusion ranges is supplied with two doors.

GRASS® SCALA STONE & NOVA PRO

THE COMPLETE DRAWER
SYSTEMS WITH PRECISION
AND INDIVIDUALITY

Your English Rose kitchen is supplied with a choice of high quality drawer boxes from GRASS, one of the world's leading suppliers of drawer systems.

Scala drawer boxes, with a square design in a graphite colour are available as a free-of-charge option, with Nova Pro Aluminium drawers supplied as standard.

Both Scala and Nova Pro are supplied with a smooth, progressive soft-closing action.

GRASS SCALA STONE & NOVA PRO ALUMINIUM DRAWER FEATURES

- GRASS drawers feature fully synchronised drawer runners, providing an ultra-smooth action whilst at the same time requiring a very low opening force.
- Drawers feature a smooth and silent soft close action with progressing dampening.
- Full extension drawer runners provide a load bearing capacity of 40kg per drawer (more than conventional systems).
- Twin-wall, metal sided drawer box with straight internal sides to provide more storage space and better compatibility with accessories.
- Solid 16mm base to provide extra rigidity and reliability.
- Easy cleaning and maintenance with tool-free removal of the drawer and drawer front. No tools, no hassle.

Easy to clean

Easy to remove

GRASS SCALA STONE
(with square side profile).
Supplied as a free-of-charge option.

GRASS NOVA PRO ALUMINIUM
(with curved side profile).
Supplied as standard.

LUXURY OAK DRAWER
(with dovetail joints).
Available as an upgrade option.

LUXURY OAK DRAWER BOXES

For that added luxury, you can also choose solid oak drawer boxes and pan drawers, constructed using traditional dovetail joints. These drawers use GRASS soft close runners, ensuring a smooth and silent close, and are an ideal accompaniment to any English Rose Kitchen, and are especially suited to painted ranges.

GRASS SCALA STONE PAN DRAWER

GRASS NOVA PRO PAN DRAWER

EVERYTHING IN
ITS PERFECT PLACE.

EVERYTHING
WITHIN REACH.

**EASY TO USE
AND ENJOY.**

English Rose storage solutions provide stylish, practical and functional solutions, meaning better organised and easier access to storage space.

In addition to brilliant functionality, English Rose storage solutions include exclusive design and a high quality finish. Internal cabinet space is used more efficiently than conventional systems, helping you get the most out of your kitchen.

Experience the design every time you reach for a pot or pan with the LeMans Corner Storage system, awarded the Red Dot Design for outstanding design achievements.

reddot design award

A PLACE FOR EVERYTHING

English Rose Kitchens are as practical as they are beautiful and a range of functional accessories are available, especially designed to allow you to customise your kitchen to your exact needs.

PAN DRAWER ACCESSORIES

Plates and crockery can be held securely in place with oak inserts. Removable storage boxes in oak can also be an effective way of storing kitchen sundries.

CUTLERY TRAYS

A wide range of cutlery trays and utensil dividers are available in either a silver effect or luxurious solid oak. Combinations of trays and dividers are used depending on the width of the drawer and your English Rose retailer will be able to advise you on the possible combinations.

LET THERE BE LIGHT

Modern lighting is an important feature within the design of your kitchen. Our extensive range offers a wide variety including the very latest styles and lighting options.

LED diffused strip light
Code: LTTLED 222 & 343

Inside wall units or flap units with no ventilation, under-cupboard lights should be used instead of low voltage downlights.

The 4-zone remote control system allows the user to control four different lighting circuits from one remote control without the need to physically wire them together. It allows you to switch up to four different areas on, off or dim at the same time, or individually.

The innovative WiFi module allows wireless control or multiple LED lights in the palm of your hand. The hub is compatible with any 12Vdc LED lights so you can control your cabinet lights, plinth lights or strip lighting using your iOS 5.0 or later smart phone or tablet, by downloading the app, which is free via the Apple Store or Android Google Play.

SINKS & TAPS

The English Rose range of sinks and taps has been developed to provide a comprehensive and stylish offer.

Our range of stainless steel sinks are made from 18/10 grade stainless steel - the highest grade available - ensuring your sink is highly resistant to staining, rusting and corrosion.

HYDRA sinks are manufactured from 80% Quartz granite particles with ANTI BACTERIAL properties. Featuring a low profile and minimalistic look, HYDRA is highly durable, easy to clean, heat, burn and stain resistant and available in a choice of fashionable colours to partner any kitchen style.

DUROPAL QUADRA WORKTOPS

So, you've chosen your English Rose Kitchen, now you need to select the right worktop to finish your design. To help you, we've chosen a comprehensive range of colours to complement the English Rose range from the Duropal Quadra Worktop collection.

Duropal are a leading supplier of quality laminate worktops throughout Europe, and the Quadra range of worktops is an ideal alternative to solid surface, granite or timber worktops. The Quadra profile is designed to provide the appearance of solid surface worktops and the unique 'seal groove' ensures a lifetime of protection against moisture and steam.

These high quality, fashionable and durable worktops are resistant to: sunlight, scratching, abrasion, stains (such as coffee, tea, red wine, ink), fruit juice spills, steam and cigarette burns, and have achieved the FIRA Gold Award for product excellence.

To view displays of Duropal worktops, please visit your local English Rose retailer.

Unique 'seal groove'

CURVED WORKTOPS

A range of Duropal worktops have been designed specifically to suit our curved base end and curved corner units perfectly. These worktops have a totally flat-faced profile and are a practical and cost-effective solution to solid surfaces and granite worktops. Curved worktops are available in both 40mm and 22mm thicknesses in all the colours.

GABLE ENDS

Available in all colours, in 40mm and 22mm thicknesses (where available), gable ends are an ideal way to create a peninsular island unit effect, or can be used as a stylish way to end a run of base units.

Logica Gloss Stone

Fusion Gloss Limestone

Moda Ivory

LAMINATED BACKBOARDS & UPSTANDS

Available in all colours, splashbacks and upstands are an ideal alternative to tiling, protecting walls from splashes behind hobs and sinks.

THE RIGHT WAY TO BUY A KITCHEN

The modern-day British kitchen is by far the busiest and most regularly used room in the home. With so many functions performed in it every day, proper planning and great design is essential.

The kind of space you have available, and how your family move around it will play a huge part in the overall design of your kitchen. You want it to look beautiful, but also work beautifully, to complement your way of living.

So take your time to browse the full range of English Rose Kitchens in this brochure, then follow these five simple steps to help you make the right choices.

"You know better than anyone how you and your family will use your kitchen space. So try to put together a rough plan before you talk to your kitchen designer."

George Clarke
Architect, Writer, Lecturer
and TV Presenter.

STEP 1: IT'S ALL IN THE PLANNING

Getting a kitchen that's perfect for you and your family's needs takes time and plenty of planning, so don't try to rush this stage. Before you talk to any experts, give yourself time to sit down and think about how you would like to use the space

Ask yourself: what would be my ideal layout? Who's going to use it? How much storage do I need? What appliances do I want? What colours and textures do I like? Do I want an island unit and can the space take it?

Measure the dimensions, including where the doors, windows and services are located and make a list of exactly what you want and need.

STEP 2: ADD SOME EXPERTISE

Once you have the measurements and a rough outline of what you want, it's time to visit your local English Rose retailer to chat through your ideas with a designer.

They'll have the experience and design expertise to advise you on what will work and what won't, and will be able to turn your initial thoughts into something that not only reflects your personality, but supports and enhances your individual lifestyle.

STEP 3: DECIDE ON THE DOORS

Nothing defines a kitchen more than the doors. Depending on the design, you can create something elegant, rustic, eye-catching, minimalist or luxurious.

An English Rose Kitchen has dozens of Traditional, Shaker and Modern styles available, in a range of gloss, wood effect, timber and painted finishes. All of which can be customised with an extensive range of handles. Or you can choose to go handle-less if you want a truly modern look.

STEP 4: LET'S TALK STORAGE

You should have already thought carefully about your storage. Not just what you need now, but also in the future. By using your available space efficiently, it's surprising just how much extra storage you can create.

English Rose units are available with all kinds of ingenious storage solutions such as the designer 'LeMans' corner unit, pull-out larders and internal drawers.

You'll find the full range of functional accessories, including lighting and shelving, from page 106.

STEP 5: WORK OUT YOUR WORKTOPS

Choosing a worktop is an important part of the design process and can change the whole look and feel of your kitchen. So it has to be right.

That's why English Rose offer a huge range of durable laminate worktops from Duropal, one of the UK's leading suppliers. They're available in a wide choice of colours and styles, and in 40mm and 22mm thicknesses.

There's also a unique range of curved worktops, designed specifically to suit our collection of curved base units.

MORE THAN JUST A KITCHEN

THE ENGLISH ROSE 10-YEAR GUARANTEE

All English Rose Kitchens come with a 10-year guarantee to give you complete peace of mind when purchasing. It guarantees that for a period of 10 years from the date of purchase, your kitchen cabinets and fascias manufactured by Omega PLC are free from defects in material and workmanship.

Please ask your English Rose retailer for more details.

THE ENGLISH ROSE DEPOSIT GUARANTEE SCHEME

English Rose Kitchens' Deposit Guarantee Scheme offers you peace of mind and certainty when you purchase an English Rose Kitchen from any of our approved English Rose Kitchens retailers.

Should the retailer cease to trade before we've delivered your kitchen, we guarantee to supply your English Rose Kitchen furniture at the current manufacturer's recommended retail price, less the deposit paid, provided that the amount paid to the retailer does not exceed 50% of the manufacturer's recommended retail price.

ONLINE INSPIRATION

If you're looking for even more inspiration, look no further than the English Rose website erkitchens.co.uk. Here you'll find a great range of features to help you find and plan out the perfect kitchen for you.

As well as being able to browse the catalogue and an image gallery of every individual kitchen and accessory, our blog and inspiration pages are full of helpful, expert advice to help you make decisions that will work for your space.

You'll find an easy-to-use kitchen visualiser too, which allows you to try different combinations of painted kitchens along with a selection of handles, worktops, flooring and wall colours.

DESIGNED FOR YOU AND YOUR WORLD

Here at English Rose, it's not just the kitchen environment we care about. We're also committed to making our planet a cleaner, more beautiful place too. So naturally, sustainability is something that's very important to us. From the wood we use and the energy we consume, to our transport and logistics, we take great care to ensure we're being environmentally responsible at all times.

We also like to make products that last. We believe that this is just as important for protecting the world's limited resources. To that end, English Rose Kitchens have been awarded FSC® Chain of Custody Certification, giving you the peace of mind that the materials used to make your kitchen have been sourced from responsibly managed forests.

We hope you enjoy this English Rose brochure. When you've finished with it please pass it on to a friend or recycle it. Thank you.

FREQUENTLY ASKED QUESTIONS

We understand you'll have potential questions which is why we've covered the ones that are asked most. However, if you have a question that isn't covered here, please contact your approved English Rose retailer who will be able to answer your queries.

Where can I see displays of English Rose Kitchens?

Your local English Rose retailer will have a selection of displays and a full set of sample doors available for you to view. We strongly recommend that you view a display or sample door prior to purchasing your English Rose Kitchen.

Can I buy direct from English Rose?

Omega PLC are the manufacturers of English Rose Kitchens and only sell via specialist retailers who will use their extensive knowledge and expert design skills to produce the kitchen of your dreams.

What happens if I pay a deposit to a retailer for an English Rose Kitchen who then ceases trading before my kitchen is delivered?

In the unlikely event of this happening we run a Deposit Guarantee Scheme. This ensures that we'll still supply your English Rose Kitchen Furniture at the current manufacturer's recommended retail price list, less the deposit paid on furniture, provided that the amount paid to the retailer does not exceed 50% of the manufacturer's recommended retail price.

Do you charge for delivery?

No. We provide FREE* delivery, direct to your home and our two-man delivery teams will ensure your new kitchen is delivered with care and professionalism.

* minimum order value applies.

Do your kitchens carry a guarantee?

Yes, all English Rose Kitchens are supplied with a 10 YEAR GUARANTEE, providing you with complete peace of mind when purchasing your kitchen. English Rose Kitchens guarantees that for a period of ten years from the date of purchase that the kitchen cabinets and fascias ("the products") manufactured by Omega PLC are free from defects in material and workmanship. English Rose Kitchens will supply replacement products for products that do not comply with this guarantee free of charge or, at our discretion, repair such products free of charge subject to terms and conditions.

How long will it take for me to receive my English Rose Kitchen?

Once the retailer has placed the order with us, your English Rose Kitchen will be delivered within 6-11 days. However, In-Frame Ivory and Country Lissa Oak are available within 2-3 weeks and all Painted kitchens are available within 3-4 weeks.

PROUDLY MADE IN BRITAIN

Omega PLC is proud to manufacture English Rose Kitchens in Britain at our state-of-the-art factory facility. We source components from the UK and around the world, to ensure we only use the highest quality materials, which are then combined to produce outstanding kitchens, backed up by unrivalled customer service.

KITCHEN CHARACTERISTICS

Wood is a natural material with an endless variety of textures and grains. Variations evident on installation should diminish over a period of time to create a pleasant uniformity. As our policy is one of continuous improvement, we reserve the right to amend designs and specifications without prior notice. Where real wood veneers are used on external surfaces, we're unable to guarantee an exact match due to natural variations in colour and grain.

The colours in this brochure are as accurate as the printing process will allow, and we recommend that you view a display or sample door at one of our approved retailers prior to purchase. Errors and omissions excepted.
